

Investor Fact Sheet

Energy Focus, Inc. (Nasdaq: EFOI)

Company Overview

Energy Focus, Inc., NASDAQ:EFOI is a leading developer and provider of energy efficiency, innovative, and award winning LED lighting products. Its advanced, high-quality tubular LED (TLEDs) lamps as well as other enterprise lighting products offer superior power-efficiency, proven reliability, UL-certified flicker-free light, and significantly lower total cost of ownership compared to fluorescent and other traditional lighting sources. Energy Focus lighting products are sold through an expanding direct sales channel and through contracting and distribution partners to government, healthcare, education, commercial and industrial markets, primarily for retrofit lighting installations. **Energy Focus has served the US Navy with highly engineered, rugged LED lamps since 2007, and is the exclusive supplier for a leading healthcare institution in Northeast Ohio that has been undertaking the largest healthcare LED retrofit project in the U.S. with over 440,000 TLEDs installed thus far in over 100 buildings.** Its commercial TLEDs boast an industry-leading quality record (with an accumulated failure rate of well less than 0.1% since its launch in 2010) and carry a comprehensive 10-year warranty.

The global LED lighting market size is expected to reach \$106 billion by 2025 with a CAGR of 11.8%, according to Grand View Research. There are estimated over 2 billion linear fluorescent lamp sockets in the U.S. alone and over 10 billion worldwide with LED penetration rate of just over 10%. With a high-quality product line focused on the enterprise markets, **Energy Focus aims to provide best-in-class LED lighting products that bring the most environmental, financial, and human benefits to mission critical facilities and smart buildings.** It has over 100,000 sq. ft. of production and warehouse facility in Cleveland, OH and manufactures Buy American Act (BAA) compliant products for government and military customers.

Market Dynamics

- Appealing payback for our TLEDs is now < 3 years in most parts of the U.S., Asia, and Europe
- Continuing efficiency gains and IoT based intelligences will accelerate adoption rate and significantly expand LED lighting total addressable market sizes
- Large brands from traditional lighting retreated among the ongoing commoditization of LED lighting, leaving an unprecedented vacuum of quality and standard leadership EFOI aims to fill
- Expanding government and business carbon reduction initiatives led by state and city driven "Green New Deals" and aggressive corporate sustainability goals, urging institutions to turn to LEDs to reduce energy use drastically and immediately

LED Lighting Retrofit —Lighting is THE Largest Source of Commercial Building Energy Savings

SENIOR MANAGEMENT

James Tu, Chairman & Chief Executive Officer

Mr. Tu rejoined Energy Focus in April 2019, and currently serves as Chairman and Chief Executive Officer. Mr. Tu previously served as Executive Chairman of the Board, non-Executive Chairman of the Board, Chief Executive Officer and President of Energy Focus from 2013 through 2017. Since 2017, Mr. Tu is the Founder and Chairman of Social Energy Partners LLC, which develops energy efficiency and sustainability projects in the U.S. and the Middle East. He is also the founder, Chief Executive Officer and Chief Investment Officer of 5 Elements Global Advisors, an investment advisory and management company focusing on investing in clean energy companies and a stockholder of the Company. Previously, he was the Director of Investment Management & Research for Gerstein Fisher & Associates, a wealth management company with \$2 billion of assets, and Equity Analyst for Dolphin Asset Management, a hedge fund focused on publicly traded small-cap companies and private equity investments. Mr. Tu received a Bachelor of Science degree in Electrical Engineering from Tsinghua University.

From 2017 to 2018, Mr. Nestor served as Executive Vice President and Chief Financial Officer of Alumni Ventures Group, a New Hampshire-based venture capital firm with the most active global transaction volume according to PitchBook. Between 2013 and 2016, Mr. Nestor served as the Chief Financial Officer of Merchants Automotive Group, Inc., a privately held, \$300 million fleet management, short-term rental, automobile retail and consumer financing company. Previously, Mr. Nestor also served as Senior Vice President and Chief Financial Officer of The Penn Traffic Company, a \$1.5 billion publicly traded grocery distribution company, and Chief Financial Officer for Fairway Holdings Corp., a privately held, \$750 million iconic grocery store chain based in the greater New York City region. Mr. Nestor received a Bachelor of Business Administration degree in Accounting from the University of Notre Dame and an MBA in Finance and Entrepreneurial Management from The Wharton School of the University of Pennsylvania. He is also a licensed Certified Public Accountant (CPA), Certified Management Account (CMA), Certified Financial Manager (CFM), and Chartered Financial Analyst (CFA).

INVESTMENT HIGHLIGHTS

- New, experience, proven, and vested executive team leading corporate relaunch that repositioned and reorganized the company growth from 2H 2019
- Uniquely positioned as a leading, quality LED lighting supplier for the enterprise retrofit markets for mission critical facilities across government, military, healthcare, education, and select commercial and industrial verticals, as traditional lighting brands retreated in a rapidly commoditizing market
- Industry technology and innovation leader, with high performance, high quality, flicker-free LED lighting products
- Direct sales force expanding across the country to education and build loyal customer base, and to rapidly realize commercial potential of additional building technology innovations
- REDCAP, now patent protected, represents multi-billion-dollar addressable market in the U.S. alone
- Marquee customers provide solid base to build on and provide references for targeted verticals
- Significant enterprise LED lighting market opportunity with accelerating adoption ensuing in the coming years as the LED adoption just surpassed 10-15%
- Expanding product portfolio, including breakthrough, patent-protected connected lighting and autonomous building controls in 2H 2019 and beyond that increase addressable markets
